

HDA 165 - 2014 UP

Product Data Sheet

Equipped with the Access cone, the Harley-Davidson dedicated speaker drivers of the HDA 165 - 2014 UP deliver a quality sound. This Focal Inside solution has been designed and developed for motorcycles operating in a noisy environment. It integrates an Aluminium inverted dome compression tweeter for high power and sound definition without directivity. Custom Harley-Davidson special grilles are also added for perfect integration in the original location.

Key Points

- Simplified installation
- 100% compatible with your motorcycle
- Sound quality superior compared to the original one
- Mounting accessories included

Check your moto compatibility at www.focal-inside.com
