

65 SF

The second generation Slatefiber range relies on its exclusive technology, designed and developed by Focal engineers to combine precision, responsiveness and robustness. Every car journey becomes a clear, dynamic listening experience, true to Focal's signature sound. From passive kits to the subwoofers, the range offers perfect sound coherence across its models, as well as a bold design. The Slatefiber solutions are characterised by their performance, versatility and easy installation.

Slatefiber cone

Made in France in the Focal workshops from recycled non-woven carbon fibre. Performance and eco-responsibility.

Butyl surround

Cone control for constant performance.

Compact and versatile speaker driver

Designed for easy integration and extended frequency reproduction.

Midrange installation brackets

Designed for intuitive installation in the original slots of certain General Motors, Toyota and Mercedes-Benz vehicles.

Key points

- Exclusive Slatefiber technology - Cone made in France in Focal's workshops
- High power handling, for long-lasting performances, even at high volume
- Optimised efficiency to limit amplification requirements
- Solid design and rigorously selected materials for long-term reliability

SPECIFICATIONS

Medium	2 ¹ / ₂ " (65mm)
Maximum power	80W
Nominal power	40W RMS
Sensitivity (2.83V/ - 1m)	87dB
Frequency response	250Hz - 11kHz
Impedance	4Ω
Depth	1 ³ / ₈ " (34.8mm)
Voice coil diameter	1" (25mm)
Magnet	Neodymium
Surround	Butyl
